

GLAZING  
& FINISHING FURNITURE

*Step by Step*

1. Refer to supply list and gather all supplies.  
\*Do not apply in direct sunlight or wind\*
2. Apply glaze section by section.  
\*Do not apply to entire piece at once and do not let dry longer than 10 minutes\*
3. Wipe off glaze in each section using one wet towel and one dry towel, until desired look is obtained.  
\*Glaze can be used to "antique" furniture or simply for depth and dimension. When doing the latter, you will wipe more off of the surface of the piece, leaving it in the cracks and crevices only. When antiquing, you will leave glaze all over.\*
4. Let dry.
5. Determine distance for spray gun. Spray clear coat.  
\*Refer to "How to Paint Furniture with a Spray Gun" from week 1\*  
\*Clear coat can also be applied using a Dixie Belle sponge applicator\*
