

## LAYERING PAINT PART 2

# Step by Step

1. Refer to supply list and gather all supplies.
2. Begin blending process with water and sanding sponge, pulling through all colors where desired. Do this section by section, beginning where the top colors meet, working your way through to the bottom colors.
3. Once you are finished blending, apply glaze section by section. \* Do not apply to entire piece at once and do not let dry longer than 10 minutes\*
4. Wipe off glaze in each section using a wet towel and a dry towel, until desired look is obtained. Let dry.
5. Using a separate towel and your finger, apply gilding wax onto corners, trim, detail, etc. for a finishing highlight.
6. Once furniture is completely dry, apply Polycrylic and/or Gator Hide.
